Dear Ms Totcharova, Dear Ms Al Khalifa,

Thank you very much for your reply. I believe that it is necessary to give additional explanations. What's going on with the historical center of Vienna I know from newspapers and friends. That's actually not my problem.

My worries are exclusively on behalf of the OTTO WAGNER HOSPITAL where the municipal government is intending to start with the building of ten three story houses somewhere in the first months of 2016. So it is VERY URGENT to undertake efficient steps to stop that disaster. Otherwise the area of the beautiful ensemble art nouveau from Otto Wagner is forever destroyed. Because of the municipal elections last October I was obliged to wait until the city government was built. When we should have got another formation then Socialists and Green the situation would have been different. But we got a second time the same. So I am convinced that this project will be fulfilled. Therefore I ask you to undertake everything what you can do to save Vienna this precious building and his surrounding which is an important part of Otto Wagner's conception.

I send you once more the link of the works from the extension to the terrible VAMED rehabilitation center. It is horrifying.

The planned construction area from GESIBA, the real estate developer of the City of Vienna, has to be prevented. VAMED's architectural damage disturbs already the harmony. Ten further new buildings would be the end of this wonderful place to get the award „World Heritage Property“. Please help the art nouveau ensemble to have the possibility. I know that the City of Vienna has to apply. But there is no intention to fulfill the reasonable wishes of of the population. It is much more interesting to earn money.

Best regards
